II	6	Keltrol F	Xanthan Gum	0.10
	7	Polygel CA (Carbopol 940)	Carbomer	0.40
III	8	AdipoSOL		2.00
	9	Tris Amino Ultra PC (10%)	Tromethamine	3.50
Total				100.00

Manufacturing process

1. Dissolve ingredients of 1 to 5 at room temperature.
2. During mixing the phase I with Disper Mixer, slowly add phase II (ingredient 6 and 7) and disperse.
3. Add **AdipoSOL™** and ingredient 9, and mix until gelation completed.
